

PROFESSIONAL DOCTORATE OF MANAGEMENT AND LEADERSHIP

Professional doctorate program in management and leadership gives students the tools for conducting advanced business research, with special expertise in topics such as corporate governance, the energy industry, human resource strategy, marketing management, and value-based leadership, among many other areas. All graduate students, regardless of the specialty they've chosen, take core courses in strategic management, organizational behavior, human resources, and organizational theory. Both micro and macro areas of management are covered, with students challenged to conduct state-of-the-art research and to develop outstanding teaching skills.
